

THE 2026 BEN FRANKLIN AWARD

An open invitation to build safer homes and be recognized for it.

Ten builders are on the list.

Steve Conboy would like you to be the eleventh.

"AN OUNCE OF PREVENTION IS WORTH A POUND OF CURE."

BENJAMIN FRANKLIN ON HOUSE FIRES • PHILADELPHIA, 1735

Three simple steps to reduce risk.

01 Build with Class A fire-treated lumber

Arrives from the mill already treated. Your framers cut it and nail it like any other stick.

02 Use Snap Plate Mold Defense

Rolled along the bottom of every plate before the walls go up. About an hour on a house.

03 Spraybare-bones construction

Your framer sprays the exposed frame before drywall. We supply the product and train the crew.

2026 recipients. The list is open.

CRYSTAL AWARD • CERTIFICATE • LISTED ON FIREPROSHOP.COM

Fifteen minutes with Steve Conboy.
Find out if it fits the way you build.

IF IT DOESN'T, HE'LL SAY SO.
