WOOD DEFENDERS

TWO SOLUTIONS. ONE ADVANCED FORMULA. A STRONGER TOMORROW.

SPMD Snap Plate Mold Defender and **MTCD** Mass Timber Connection Defender are both an Eco Advanced, non-toxic, very low VOC formula of commercial strength water repellency with a durable fungi strength additive tested under ASTM G-21 laboratory test against fungi mold growth on wood.

SPMD
SNAP PLATE MOLD DEFENDER

DEFEND YOUR FOUNDATION.

- Blue for stick framing
- Apply under, around, and on all wall plates
- Use on sub floors
- Helps prevent mold growth
- Water repellent protection
- Commercial strength
- Non-toxic / Very low VOC
- ASTM G-21 tested

MTCD
MASS TIMBER CONNECTION DEFENDER

PROTECT THE CONNECTIONS.

- Same advanced formula as SPMD
- Factory apply and spray inside connections
- Defends against damage caused by trapped moisture
- No blue dye
- Commercial strength
- Non-toxic / Very low VOC
- ASTM G-21 tested
